

2023 ADMISSION NOW OPEN

Maine's Biomedical
PhD Program

The University of Maine is an equal opportunity/
affirmative action institution.

ABOUT US

The Graduate School of Biomedical Sciences and Engineering (GSBSE) is a statewide program that includes the University of Maine as the degree granting institution and four additional cooperating academic and research institutions within Maine (Mount Desert Island Biological Laboratory, The Jackson Laboratory, The University of New England, MaineHealth Institute for Research). With over 200 faculty, GSBSE provides a flexible, collaborative research environment where students can freely explore a wide range of research interests. The GSBSE offers a Ph.D. in Biomedical Science, a Ph.D. in Biomedical Engineering, and a Professional Science Masters (PSM) in Bioinformatics. The transdisciplinary T32 provides integrated training opportunities for GSBSE students.
